

Harvest Pillar For Fence Posts

Say goodbye to rot, rust, and replacements. Harvest Pillar fence posts are built to last a lifetime, saving you time and money.

Stable and Strong

The added weight of Harvest Pillar posts compresses soil for a rock-solid foundation, keeping fences secure under pressure from livestock, weather, and rugged terrain.

Durable by Design

Prestressed concrete resists rot, rust, and decay, ensuring your posts last a lifetime without the need for painting, sealing, or costly replacements.

Fits Every Fence

Designed for ranch rail, barbed wire, and other agricultural fencing, Harvest Pillar posts offer adaptable solutions with corner and gate accessories to simplify installation.

Made in California by Jensen Precast
